Everyone can use this system to jump-start their business and retirement – Post Covid.

Praised as “a great lawyer and great thinker” (Wil Leroy, CEO ALFN: banking association), an expert and an expert-for-experts, veteran attorney and industry speaker and author leads the national debate in the banking mortgage finance, default and foreclosures industries. Why? Out to help people, in 2006, Richard wrote an article called ‘Naked Seconds’ – warning that the economy was about to crash. Members of Congress read it and invited him to deliver a neutral analysis and statement to the 110th Congress. Within 3 months, in January 2007 he did just that, and immediately found himself in the middle of the left and right political and economic (world) powers. He became the Chairman of CMIS (the D.C. Coalition for Mortgage Industry Solutions). In mid-2007 the mortgage and credit crisis were wiping out millions. The Great Recession arrived, it was real, and it ran through-out the world. It appeared no one was taking decisive action to stop the snow-balling asset (mortgage) write-offs (per the Reps and Warranties in our banking and credit swap contracts), leading to greater devaluations, credit freezes, and escalating foreclosures.

Out of desperation to save the economy and stop people from being thrown in the streets (by the millions), Richard created a *system* to **Lead, Influence the Influencers, and Start at the Top!** **It’s called the 7 Secrets of the InstantKnowItAll™.** **Everyone can use this system to jump-start their business and retirement – Post Covid.** Richard fashioned a national D.C. Summit with billionaire Wilbur Ross (then largest private owner of mortgages in the U.S.) to create solutions on a live all-day international broadcast. Richard’s been interviewed, published, quoted, or spoken at conferences, over 100 times.

Out of Desperation and Compassion, to save millions from being thrown in the street, Richard created solutions to the Great Recession, with his 7 Secrets of the InstantKnowItAll™!

Napoleon Hill taught us that Specialized Knowledge is the key to success! Veteran Attorney, Accountant and Business Consultant teaches us how to become an Instant KnowItAll™ and how he led the national debate to save 15,000,000 people from being thrown in the streets during the Great Recession. It only took the author some 3 months to be invited to Congress and give his Statement of Solutions to the 110th Congress. Yes, that’s fast, and it starts at the top.
